

Tell Me I'm The One

Jennifer Day

(Jennifer Day/Tommy Lee James)

Don't let this moment pass you by
Darlin' talk to me
You can look me in the eye
And set your feelin's free

Tell me I'm the one
Your baby
The one who makes your heart go crazy
Tell me if you really mean it
How you can't wait another minute
To be the one who holds me tight
Tell me that it just feels right
Tell me you need me, you want me, you can't get enough
Tell me I'm the one

How am I supposed to know
If you don't say the words
The louder that this silence grows
The more it seems to hurt, hey yeah

Tell me I'm the one
Your baby
The one who makes your heart go crazy
Tell me if you really mean it
How you can't wait another minute
To be the one who holds me tight
Tell me that it just feels right
Tell me you need me, you want me, you can't get enough
Tell me I'm the one

You want, you need, right now
The love (tell me) your heart (I'm the one)
Can't live (tell me, baby) without (hey yeah)

Tell me I'm the one
Your baby
The one who makes your heart go crazy
Tell me if you really mean it
How you can't wait another minute
To be the one who holds me tight
Tell me that it just feels right
Tell me you need me, you want me, you can't get enough
Tell me I'm the one
