

Beautiful Goodbye

Jennifer Hanson

It's like the most amazing
Sunset you've ever seen
There's never another quite the same
It just falls into some deep eternal sea

Like the end of a movie that makes you cry
You're sad when it's over
But you're glad you had
That moment that moved you deep inside

Beautiful goodbye, baby, goodbye
I enjoyed the ride, we really had us a time
It's a strange kind of high
A beautiful goodbye

I'm standin' here watchin'
You drive away
We were so grown up about it all
But how will it look in the light day?

I miss you already but don't turn around
It's funny how you know
When it just won't work
And how letting go can echo the sweetest sound

Beautiful goodbye, baby, goodbye
I enjoyed the ride, we really had us a time
It's a strange kind of high
A beautiful goodbye

So ironic, and so confusing
To do the right thing and be losing
I'm always stuck with choosing
And ain't that just like life?

Hey yea, hey yea

Beautiful goodbye, baby, goodbye
I enjoyed the ride, we really had us a time
It's a strange kind of high
A beautiful goodbye, goodbye, yeah

Naa naa naa, goodbye
Naa naa naa, goodbye
Naa naa naa, goodbye
