

# Bring Back the Music

Jennifer Hudson

Ok so here we go  
Give me that  
Just like that  
Yeah let's start with some music  
Give me a lil of something else  
Let's take 'em, let's take 'em back

Won't you bring it back?  
Will you bring it back?  
Yeah we bring it back, yeah we bring it back  
Singing together, dancing in the street  
Music playing, moving to the beat ooh  
Back in the time that music make me smiling  
The song will change the weather, we can together  
But some ever know the line we lost  
I will make the music go out babe  
Take away and enjoy, we start to fight  
And before we lose this all on today

Won't you save? And bring it back? Say you bring it back  
Gotta bring it back, gotta bring it back  
Bring back the music, bring back the life  
Bring back that feeilin, feeling along  
Let me talk to you

This sound of freedom, music makes me free  
It makes you happy, gave you all you need  
Back in the time he was ok with all  
Music said the words you couldn't think off  
But somewhere on the lines we own something  
And we make the music go away  
Took away enjoy and we start to fighting  
And before we lose another today

Won't you save? And bring it back? Say you bring it back  
Gotta bring it back, gotta bring it back  
Bring back the music, bring back the life  
Bring back that feeilin, feeling along

Hey, bring back the music, bring back the music,  
Never let it go away  
Hey, hey, hey bring it back  
We need for music, we need for music won't you let the music play?  
Hey, bring back the music, bring back the music,  
Never let it go away  
Hey, hey, hey bring it back  
We need for music, we need for music won't you let the music play?
