

# I Can't Describe (The Way I Feel)

Jennifer Hudson

I can't describe (the way I feel, the way I feel)  
All of my heart (the way I feel, the way I feel)  
I just can't put in words what I feel for you (the way I feel, the way I feel)  
It feels so good it hurts, what you do (the way I feel, the way I feel)

I feel like I'm in love  
That is nice but not good enough  
I feel like saying something that's for us, that defines what's in our hearts

Dancing and we play around, you know you got me  
And dancing feels like raining down all over my body  
It tingles here, tingles there, ooh it tingles everywhere  
That's why I never find the words to describe it

I can't describe (the way I feel, the way I feel)  
All of my heart (the way I feel, the way I feel)  
I just can't put in words what I feel for you (the way I feel, the way I feel)  
It feels so good it hurts, what you do (the way I feel, the way I feel)

This feels right, just staying up  
And you don't describe when it's not  
I can feel my happy thumping from your touch  
In my life you are my love

Dancing and we play around, you know you got me  
And dancing feels like raining down all over my body  
It tingles here, tingles there, ooh it tingles everywhere  
That's why I never find the words to describe it

I can't describe (the way I feel, the way I feel)  
All of my heart (the way I feel, the way I feel)  
I just can't put in words what I feel for you (the way I feel, the way I feel)  
It feels so good it hurts, what you do (the way I feel, the way I feel)

In the morning,  
Hopefully you tell me what we both know  
Right, right now,  
Think about it later, boy just love me now

Come on Shawty, you already know bout me  
In the summer Barcelona, Monaco I be  
Kickin flave on the gold coast, doing the most  
We poppin gold bottles, 20 thousand toes  
I'm sending Beezy up, they can take a walk on the moon  
My wife's got it showing in the middle of June  
And we can kick it on the water when it's out in the street  
On the yacht, so it's never free (getting money)  
I'll let you get to play a card, if you play you're right  
Make you shine on sight in the day or night  
I could never be a bad I just say I be  
But I could be good if the wood be good  
In the drop top, park downtown, getting to it  
Let you have it like a true dope boy should

The neighbors all here, you wanna do something to it  
'Cause we work em all up, wake up to the mall up

I can't describe (the way I feel, the way I feel)  
All of my heart (the way I feel, the way I feel)  
I just can't put in words what I feel for you (the way I feel, the way I feel)
