

I Still Love You

Jennifer Hudson

Everything is strange how we call back so late
But silence will kill, can't remember when
I lost my living, guess is too bad is it?
But I'm letting go, I'm leaving

Cuz I still love you, please come back to me
Cuz you're everything I need
I still love you
You make my life complete
I still love you

I still love you, please come back to me
Cuz you're everything I need
I still love you
You make my life complete
I still love you

I can't breathe, I need you to succeed
On the silence again cuz this love don't end
I can heard the same, you to? If you break this change
Help me live again

If I'll know you for true, I will say if it's true
Bout to gave up and shut, you make it
I regress my car, you can bridge again
I'm not letting go, I'm giving in

Cuz I still love you, please come back to me
Cuz you're everything I need
I still love you
You make my life complete
I still love you

I still love you, please come back to me
Cuz you're everything I need
I still love you
You make my life complete
I still love you

No one ever want to stay right
Should we gave ourselves another try
Should I only be one thing?
Now I only have myself to win

Wish this feeling never change
But I'm letting go, I giving in

I still love you, please come back to me
Cuz you're everything I need
I still love you
You make my life complete
I still love you

I still love you, please come back to me
Cuz you're everything I need
I still love you
You make my life complete

I still love you
I still love you

I still love you, please come back to me
Cuz you're everything I need
I still love you
You make my life complete
I still love you

Please come back to me
Cuz you're everything I need
I still love you
You make my life complete
I still love you
