

# Just That Type of Girl

Jennifer Hudson

I cannot handle business  
I'm lookin' at you, boy  
I'm thinkin' about the things we can do and explore

I'm wonderin if you figure  
What my body is gonna say  
Tell me what it do  
Hey, listen, I ain't playin'

So don't bother me  
If you get too deep and then you're told  
Me and my girls just came to party  
It's that simple

If you need to know  
I'm about to go  
I'm always in my head  
That's where to find me  
And that's where you wanna be

I'm just that type of girl  
Figured I'd let you know  
Lookin' for what I need  
Tonight is all for me

I'm just that type of girl  
Freedom comes and goes  
Different I might be  
Tonight I'm losing me

I'm just that type of girl  
I'm just that type of girl  
I'm just that type of girl  
I'm just that type of girl

You and your boys in the refreshin' town  
Me and my girls, it's all up in the house, house, house, house  
You and your boys in the refreshin' town  
Me and my girls, it's all up in the house, house, house, house

So don't bother me  
If you get too deep and then you're told  
Me and my girls just came to party  
It's that simple

If you need to know  
I'm about to go  
I'm always in my head  
That's where to find me  
And that's where you wanna be

I'm just that type of girl  
Figured I'd let you know  
Lookin' for what I need  
Tonight is all for me

I'm just that type of girl

Freedom comes and goes  
Different I might be  
Tonight I'm losing me

I'm just that type of girl  
I'm just that type of girl  
I'm just that type of girl  
I'm just that type of girl

I got, I got what makes a woman irresistible  
I'm doing work if you stay in your place, your place

I'm just that type of girl  
Figured I'd let you know  
Lookin' for what I need  
Tonight is all for me

I'm just that type of girl  
Freedom comes and goes  
Different I might be  
Tonight I'm losing me

I'm just that type of girl  
I'm just that type of girl  
I'm just that type of girl  
I'm just that type of girl

You and your boys in the refreshin' town  
Me and my girls, it's all up in the house, house, house, house  
You and your boys in the refreshin' town  
Me and my girls, it's all up in the house, house, house, house  
So what now?
