

## Where You At

Jennifer Hudson

You said when the storm came  
That you would be there with your umbrella to block the rain  
And you said you'll protect me from heartache,  
pain, lies, loneliness and misery  
You said you'll tear down the walls  
that were in my way you promise things would be okay  
and I stood there in the freezing cold and I waited for you but  
you never showed

Where you at [3x]  
Boy you said you would be there for me  
Where you at [6x]

Now you said you'll would go to church, stop slanging, find a r  
eal job and go to work  
and you said you would stay out the streets, spend more time wi  
th me,  
take my doubts and fears and fulfill my dreams  
you said you would be the shoulder for my eyes to cry on you  
said you would be that one I could depend on  
and I stood there in the freezing cold and I waited for you but  
you never showed

Where you at [5x]  
Boy you said you would be there for me  
Where you at

Those false promises is much like fake names  
you painted a picture for me but there was no frame  
You made my future look bright and I believed every word  
I went to sleep in the cloud and woke up in the dirt  
And now I'm without shelter and the wind is blowing  
you said you would be there for me boy when the tough got going

Said if weapons draw, you'd stand in front of me  
Whenever I felt trapped, said you'd be the one to set me free  
Thought you were my hero but as it turned out you were no show

Tell me where you at  
You said you would be there for me  
Where you at  
and I came to see, see, see you said you would be there for me  
Where you at
