

Cool With You

Jennifer Love Hewitt

Late last night, I was goin' through some old things
When I saw a picture of you, my best friend
It reminded me of days, when you were mine
You had a way that always left me here with a smile
I want those sweet days back again
'Cause baby

It's a sunny day but you're not around
That doggone rain might as well be pouring down
It's such a shame 'cause my heart's on the ground
I just wanna be cool with you again

Sometimes I sit by the fire and reminisce
About the time that we spent in front of it
And that old flame will never be the same
Until you come back here and rekindle it
I just wanna share my heart with you again
'Cause baby

It's a sunny day but you're not around
That doggone rain might as well be pouring down
It's such a shame 'cause my heart's on the ground
I just wanna be cool with you again

I fall asleep at night and often see you here
In my dreams
Holding me
Yeah baby
But then I wake up and I realize that you're not
Here with me
It hurts so much
I gotta have you back, baby

It's a sunny day but you're not around
That doggone rain might as well be pouring down
It's such a shame 'cause my heart's on the ground
I just wanna be cool with you again

It's a sunny day but you're not around
That doggone rain might as well be pouring down
It's such a shame 'cause my heart's on the ground
I just wanna be cool with you again
