

# Hey Everybody

Jennifer Love Hewitt

We've all got troubles  
We all make mistakes  
But let's not take a little river  
Turn it into a lake  
We've all been humbled  
We've lost and we've found  
But it can never get the best of us  
If we're not looking down

And I wonder  
Are there others like me  
Yeah I wonder  
I've got the whole world left to see

Hey Everybody  
If you listen to the beat  
We'll celebrate it now  
By stomping our feet  
Hey everybody  
Do you know what I mean  
We can get it dirty  
While we're keeping it clean

You've got it bad  
Well she's got it worse  
She's got no chocolate in the bank account  
No cheese in the purse  
You feel neglected, with no self-esteem  
Just when you finally found your glitter  
Someone's taken the gleam

And I wonder  
Why is life always this way  
Yes I wonder  
Could there be a brighter day

Hey Everybody  
If you listen to the beat  
We'll celebrate it now  
By stomping our feet  
Hey everybody  
Do you know what I mean  
We can get it dirty  
While we're keeping it clean

And I wonder now  
(Can we work it out)  
And I wonder now  
(Ad lib bit)

Hey Everybody  
If you listen to the beat  
We'll celebrate it now  
By stomping our feet  
Hey everybody  
Do you know what I mean  
We can get it dirty

While we're keeping it clean

Hey Everybody  
If we're gonna take a stand  
Now let the world hear you  
By clapping your hands

Hey everybody  
If you listen to the beat  
We'll celebrate it now  
By stomping our feet

Na na na na na na ....
