How Do I Deal

Jennifer Love Hewitt

Every day I wake up To another day gone by Nothing but the open road And the never-ending why

Anything can happen Yeah, but nothin' ever does I try to change, it's kinda strange The same as it ever was but look at us

How do I deal with you? How do I deal with me? When I don't even know myself Or what it is you want from me

How do I deal with us? How do I know what's real? When I don't even trust myself Or what it is I feel And how do I deal?

Every night, in the dark I lie awake in bed How am I supposed to dream With all the static in my head?

I turn in all directions And I pray for some relief What can I do but feel the weight I'm underneath And grit my teeth

How do I deal with you? How do I deal with me? When I don't even know myself Or what it is you want from me

How do I deal with love? (Why do I?) Why do I have to choose? And everybody's tellin' me What the hell I have to do

And how do I deal with us? How do I know what's real? (Real) When I don't even trust myself Or what it is I feel Now how do I deal?

How do I deal with you? (How do I deal with you?) How do I deal with me? When I don't even know myself Or what it is you want from me

How do I deal with love? (How do I deal?)

Why do I have to choose? When everybody's tellin' me What the hell I have to do How do I deal with you? (How do I deal with you?) How do I deal with me? (How do I deal with me?) When I don't even know myself Or what it is you want from me How do I deal with us? (How do I know what's real?) How do I know what's real? When I don't even trust myself Or what it is I feel How do I deal? (How do I deal? Yeah) How do I deal? How do I? How do I? How do I deal? How do I? How do I? How do I deal with you? (How do I deal?)
