

# I Know You Will

Jennifer Love Hewitt

Baby baby drive me crazy  
Walking on the edge  
The way you touch yourself  
Has got me hanging on a ledge  
Is it me? Is it you?  
Some that I didn't see?  
I walk away but there you are  
Standing next to me

Don't tell me that you won't go there baby  
'Cause I know that you will  
Don't tell me that you won't do me baby  
'Cause I know that you... I know that you  
I know you will

Mister mister I'm a sister  
That you cannot play  
If I give it up to you  
You know you'd take it all the way  
You can try you can scheme  
You know that chemistry don't lie  
Cause the way you move your body is  
Giving me the vibe

Don't tell me that you won't go there baby  
'Cause I know that you will  
Don't tell me that you won't do me baby  
'Cause I know that you... I know that you  
I know you will

I know you will
