

# I'll Find You

Jennifer Love Hewitt

I go to sleep  
Here you come again  
A ghost with sweet angel eyes  
I can't erase  
The beauty of your face  
I need you here by my side...

I'll find you  
If it takes a million dreams  
I'll find you  
I know you're out there somewhere  
I'll find you  
Don't give up on me  
I'll find you  
I swear

I close my eyes  
Just to be with you  
You keep me safe and warm  
I feel you here  
But your voice is not so clear  
Just give me time I'll be there...

I'll find you  
If it takes a million dreams  
I'll find you  
I know you're out there somewhere  
I'll find you  
Don't give up on me  
I'll find you  
I swear

More than a vision in the night  
Oh how the silence feels so right  
I believe  
I do believe...

I'll find you  
If it takes a million dreams  
I'll find you  
I know you're out there somewhere  
I'll find you  
Don't give up on me  
I'll find you  
I swear

But your voice is not so clear  
Just give me time I'll be there...

I'll find you  
If it takes a million dreams  
I'll find you  
I know you're out there somewhere  
I'll find you  
Don't give up on me  
I'll find you  
I swear

More than a vision in the night  
Oh how the silence feels so right  
I believe  
I do believe...
