

It's Good To Know I'm Alive

Jennifer Love Hewitt

You make me smile
Everybody needs and little sunshine and when i do your always t
here with my suprise
Its good to know that I'm alive
You make me sing
Everybody's lookin for an answer with a metaphysical ring, can
you take me out there?
It's good to know that I'm alive

Caught up in the middle of a lovely, lovely day
And did you ever get the blues and think they'd never go away
And then your life is big fat dude who just stopped by to say,
There's a lesson to be learned and everybody's gotta pay

Now you got your crazy wisdom to life to solve the night
You've been walking that high wire baby without a man insight
You believed in reincarnation, but that was in another life
Well, like the bible said be happy, it's ok to change your mind
.

You make me smile
Everybody needs, needs a little something
Its good to know that I'm alive, I'm alive

You make me sing
Everybody needs, needs a little something
Its good to know that I'm alive, I'm alive...
