Just Try

Jennifer Love Hewitt

Didn't want to then we kissed
I didn't want you but I did
I said it's gone too fast but, baby, I lied
If I do some things I never would
Doesn't mean I' not so good

What about the way I feel inside?
If I run away it's not gonna work this time
I gotta stay, everything's gonna be alright

Don't talk about it worry so much
Try to figure out what's gonna happen's
Gonna happen here tonight
Don't think too much, don't try too hard

It's alright if it goes too far
Now is not the time to question why
Just try, just try

It's time to throw away the plan
Whatever happens depends
I don't need to know the end this time
I've played it safe with you before

Aren't you tired of leaving wanting more
I think tonight we're seeing eye to eye
I thought I'd run away it's not gonna work this time
I want you to stay, everything's gonna be alright

Don't talk about it worry so much
Try to figure out what's gonna happen's
Gonna happen here tonight
Don't think too much, don't try too hard

It's alright if it goes too far
Now is not the time to question why
Just try, just try

I'm a little afraid of where this is gonna lead
But I've made up my mind, tonight is the night

Don't talk about it worry so much
Try to figure out what's gonna happen's
Gonna happen here tonight
Don't think too much, don't try too hard

It's alright if it goes too far
Now is not the time to question why
Just try, just try

Don't talk about it worry so much
Try to figure out what's gonna happen's
Gonna happen here tonight
Don't think too much, don't try too hard

It's alright if it goes too far
Now is not the time to question why

Just try, just try

Don't you talk about it
Just try, just try

Just try, just try

Don't you talk about it
Just try, just try
