

# Let's Go Bang

Jennifer Love Hewitt

Unspoken words  
You know just what to do  
The rhythm moves like  
Second nature to you  
So primitive it fits you like a glove  
Instinctive as to make love  
Let's go

Before the groove hits  
The move you want it to  
And Uncle Funk wants  
It over tonight  
So just dance along to  
Wherever they take you tonight  
You just bang it all up and out  
Bang it all on time

Let the beat let the beat be your lover  
Free your mind, let the beat take you over  
Throw all inhibitions up into the wind

Let's go bang  
I want to go bang  
Let's go bang  
I want to go bang  
Let's go bang  
I want to go bang  
Let's go bang  
I wanna

Well, if you move to the groove  
The way I do  
There's nothing else in the world  
That compares  
And if you dance to release the part of you  
That keeps telling you to be free  
Let it take you there

Let the beat, let the beat be your lover  
Free your mind, let the beat take you over  
A groove premonition your feet can't ignore

Let's go bang  
I want to go bang  
Let's go bang  
I want to go bang  
Let's go bang  
I want to go bang  
Let's go bang  
I wanna

Oh in the air tonight  
There's breathing in the wind  
Oh in the air tonight  
The beat is; it's going on  
It's going on, it goes:  
Let the beat, let the beat be your lover

Free your mind, let the beat take you over  
A groove premonition your feet can't ignore

Let's go bang  
I want to go bang  
Let's go bang  
I want to go bang  
Let's go bang  
I want to go bang  
Let's go bang  
I wanna
