

Another Way

Jennifer Rush

Searching for the reasons
To the changes of a life
Are we gonna take it all
We're gonna make it right
Oh
Living on the endge
Is where we give it all in time
I now that you are just an angel
Waiting for a chance to fly

Another way
Another time
We can make it work out right
Another chance
Another way
There's another way

Colours of the rainbow
Dancing in the heart of life
This could be the way t
To make another change in time
Oh I know
Wanna be the reason
You can hear that freedom calling
Oh
When I wanna be uplifted
I will always turn to you
Hey

Another way
Another time
We can make it work out right
Another chance
Another way

Wings can only fly
When they are set free
Ooh, but I like the light
Searching for your soul
Baby now it's time
That we start to find a new way
Hey, there's another way

Another way
Another time
We can make it work out right
Another chance
Another way
There's another way
Don't you see that there is, there is another way
Another way, babe
There's another way,
Hey
