

# Automatic

Jennifer Rush

Was looking for somebody to move me  
I saw your face  
You're all that I've been dreaming of  
Electric eyes drove me insane  
Now nothing but your love can move me  
Takes me where I need to go  
So far the timing is right  
It's all that I need to know  
With you I just lose control

It's automatic, it's automatic  
I feel love must take its hold  
It's automatic. I'm automatic  
I lose I just lose control  
It's automatic

Oh, you're the magic in my life  
Who's flying down to me  
Cause nothing but the taste of your love  
Can satisfy the need in me  
Enough to let your body move me  
Takes me where its going to  
My love, in the still of the night  
Is all I can give to you  
With you I just lose control

It's automatic, it's automatic  
I feel love must take its hold  
It's automatic, I'm automatic  
I lose I just lose control  
Its automatic, its automatic  
With you I just lose control  
Its automatic its automatic  
I feel love must take its hold  
I'm automatic, I'm automatic  
Automatic
