

# Crazy 'Bout You

Jennifer Rush

Seven lonely days, seven lonely nights I wonder  
Why my dreams don't stop and my heart don't know any better  
Something's gotta give, I can't hold on to this much longer  
Think about it cause I mean it  
Gotta know you're gonna be here

I don't want you if I can't have you now  
You make me feel like this  
I'm so crazy bout you so crazy bout you  
If you ask me why I just can't resist  
Oh how I need you now  
I'm so crazy bout you so crazy crazy bout you

Think what this could be how good we could be together  
If you'd just let go open up your arms forever  
Look into my eyes don't you see the love you've been missing  
Think about it cause I mean it  
Gotta know you're gonna be here

I don't want you if I can't have you now  
You make me feel like this  
I'm so crazy bout you so crazy bout you  
If you ask me why I just can't resist  
Oh how I need you now  
I'm so crazy bout you so crazy crazy bout you

Baby how can we let this get away  
And not make a stand I refuse  
I still believe in I still believe in you

Think about it cause I mean it  
Gotta know you're gonna be here

I don't want you if I can't have you now  
You make me feel like this  
I'm so crazy bout you so crazy bout you  
If you ask me why I just can't resist  
Oh how I need you now  
I'm so crazy bout you so crazy crazy bout you
