

Deeper Within

Jennifer Rush

Heaven knows
Where I do begin
To show you love that lies within
Your skin
Open up your heart
Let the light come shining in cause

'Cause when everything is gone
Did you ever think that you're alone

Look deeper within your skin
Can't you see love in everything
Look deeper within your skin
Can't you see love in everything
Can't you, can't you, can't you
'Cause you'll never find yourself alone

Not alone
When somewhere in your heart
There's a love that's burning in
So just smile
Love is like a child
Running innocent and wild

'Cause when everything is gone
And you find you're standing on your own

Look deeper within your skin
Can't you see love in everything
Look deeper within your skin
Can't you see love in everything
Can't you, can't you, can't you
'Cause you'll never find yourself alone

'Cause when everything is gone
The candle burning still goes on

Look deeper within your skin
Can't you see love in everything
Look deeper within your skin
Can't you see love in everything
Can't you, can't you, can't you
'Cause you'll never find yourself alone
