

Flames Of Paradise

Jennifer Rush

You're walkin' talkin' like a flame, baby
You're walkin' talkin' like a flame, baby

You're walkin' talkin' like a flame, baby
(you're walkin' your talkin' you're walkin' you're talkin' ooh)
You're walkin' talkin' like a flame, baby
(you're walkin' you're talkin' you're walkin' ooh)

Never knew what my heart would be facin'
Guess I musta been blind sayin' goodbye to you baby
You baby, to baby, you baby

Close my eyes at night
And I can taste it
I'm right back in the fire where I once had you baby, ooh baby
You say don't ever leave me
I say that's something I won't do

I want you back in my arms
In the flames of paradise
The flames of paradise
I want you back in my arms
In the flames of paradise
Flames of paradise

I give up all of my love just to you
It's been so long baby
I give you all my love waits for you
Don't take too long baby

I've been making some brave conversation
Tellin' friends I'm way better off without you baby
You baby, who baby, you baby

And I was livin' in my imagination
Thinkin' I couldn't make it without you too baby, ooh baby
My heart tried to decieve me
But that's one thing it just can't do, hey

I want you back in my arms,
In the flames of paradise
The flames of paradise
I want you back in my arms
In the flames of paradise
Flames of paradise

I give all of my love just to you
It's been so long baby
I give you all my love waits for you
Don't take too long baby

(ohh ohhh ohh)
Baby talkin' like a flame
(ohhh, whoa, ooh)
You're walkin' like a flame

You said don't ever leave me

That's one thing I won't ever do

Oh baby, I want you back in my arms
In the flames of paradise
(The flames) The flames of paradise
I want you back in my arms, baby
In the flames of paradise
The flames of paradise

I give all of my love just to you
It's been so long baby
I give you all my love waits for you
Don't take too long baby

I want you back in my arms
In the flames of paradise
Flames of paradise
