

## For All That

Jennifer Rush

Everything changes  
I'm wondering if it's the truth  
`Cause I know the difference  
You're making a move  
Trying to tell if I still tremble  
When I think of you  
I've crossed that line before  
But you know that I still do

You and me are fire and rain  
We're like rolling thunder  
All I know is I want you  
You were racin' I slowed down  
Trying to find a reason  
For all that I cried for you

I still wanna know you  
By forging the chains of love  
But I need to see through  
Are you leading me on  
Can you believe that it's surrender  
No it never died  
This hunger that survives  
For all that I still want you

You and me are fire and rain  
We're like rolling thunder  
All I know is I want you  
You were racin' I slowed down  
Trying to find a reason  
For all that I cried for you

You were mine  
My heart was yours  
We did not find  
A way to survive

You and me are fire and rain  
We're like rolling thunder  
All I know is I want you  
You were racin' I slowed down  
Trying to find a reason  
For all that I cried for you
