

# Head Above Water

Jennifer Rush

Keep your head above  
Keep your head above  
Keep your head above above

Journey of a thousand miles begins with one step  
and everytime you think you can't you've just got to forget  
Don't watching over thousand trues so cross off these out same  
Make it they faith and they stop to the blame

And everytime don't you wanna say or no  
You gotta be careful not to let it show  
Yes, She's gotta have soul

And everytime don't you wanna scream out loud  
Flowed away just it let it go  
'Cause you've gotta have faith.and soul

When you swimming upstream  
Then you gotta believe  
Keep your head above water, water

When you swimming upstream  
Then you gotta just see  
Keep your head above water, water

If you gotta dreaming you have got to keep in mind  
Things there are lost can almost always be found  
But at least you gotta try  
If you don't succeed well at least then you know why

And everytime don't you wanna say or no  
You gotta be careful not to let it show  
'Cause you've gotta have soul

And everytime don't you wanna scream out loud  
Flowed away just it let it go  
'Cause you've gotta have faith.and soul

When you swimming upstream  
Then you gotta believe  
Keep your head above water, water

When you swimming upstream  
Then you gotta just see  
Keep your head above water, water

Do what you want to  
Stay around if you have to  
but just remember to always do what you gotta do  
always do what you gotta do  
This things will always been what you plan  
So keep your head hide above the water line

When you swimming upstream  
Then you gotta believe  
Keep your head above water, water

When you swimming upstream  
Then you gotta just see  
Keep your head above water, water

When you swimming upstream  
Then you gotta believe  
Keep your head above water, water

When you swimming upstream  
Then you gotta just see  
Keep your head above water, water

Keep your head above water
