

I Come Undone

Jennifer Rush

1. Time heals the wounded but my heart still bleeds
I can't get you out of my life
here's my confession you're all that I need
I don't wanna love you but oh oh oh

R: With the touch of your hand I come undone
with the flash of your burning eyes I know that you're the only one
I come I come undone I come undone

2. Your footsteps are heartbeats there's knocking at my door
I swore that I won't let you in
love's got its heroes but I know that I just
can't hold out forever and oh oh oh

R: With the touch...
...
I come I come undone I come undone

*: Don't know what you're doing to me
'cause when your arms reach out I'm gone

here's my confession you're all that I need
I don't wanna love you but oh oh oh

R: With the touch...
...
I come I come undone I come undone
