

Just This Way

Jennifer Rush

Tic-toc the clock stops
When you enter the room
Picture perfect I pause
Just to make in the view
And then you come near me
I can hardly breath

So soft we rock
And it's just me and you
Seems the whole world is gone
It's your eyes I'm into
And I'm seeing so clearly
Let's make a memory

Tomorrows never promised
So we better seize today
Now is right upon us
And I wanna feed the flame

'Cause this could be the last time I ever see your face
And this could be the last time I melt in your embrace
If this turns out to be the last breath I get to take
I wanna remember you
Just this way
This way

Baby this is our night
Tell me am I asleep
'Cause I fell so sublime
In this magical scene

If I'm dreaming don't pinch me
Let's live this fantasy

Tomorrows never promised
So we better seize today
Now is right upon us
And I wanna feed the flame

'Cause this could be the last time I ever see your face
And this could be the last time I melt in your embrace
If this turns out to be the last breath I get to take
I wanna remember you
Just this way
This way

Breathe every moment
Fell my heartbeat getting closer
Let's make the hands of time stand still
So we can stay here
Stay here

Tomorrows never promised
Now is right upon us

'Cause this could be the last time I ever see your face
And this could be the last time I melt in your embrace

If this turns out to be the last breath I get to take
I wanna remember you
Just this way
This way.
