

Midnight Mirage

Jennifer Rush

Movin' fast through this
Moonlight highway I
See your face in the
Blue of the dashboard lights
Gonna see you tonight

Constant miles runnin'
'Neath my wheels I see
All those headlights
And billboards rushin' out of sight
Gonna be with you tonight

And the radio's playin' some song
And I suddenly realize
That's the song the were playing
The very first time that I looked
Into your eyes
Singing

You are so beautiful tonight
My midnight mirage
I'll make you real
I'll hold you tight
My midnight mirage
I'll be safe in your arms
In a little while

All this
Time and distance and
Rhyme and reason made
My decision oh
How you make me feel
Oh you make me feel so real
Almost feels like you're
Here beside me instead
Of some place
Some place I could never find
I'm bound to find it this time

And the radio station is lost
In the distance so far behind
But the song they were playin'
Still echos around and around
In my mind
Singing

You are so beautiful tonight
My midnight mirage
I'll make you real
I'll hold you tight
My midnight mirage
I'll be safe in your arms
In a little while

Movin' fast thru this
Moonlight highway
Got ten more nine more eight more miles

Away from you
All of my life with you

You are so beautiful tonight
My midnight mirage
I'll make you real
I'll hold you tight
My midnight mirage
I'll be safe in your arms
In a little while
