

# Never Gonna Turn Back Again

Jennifer Rush

I don't want just anybody  
To keep me warm on lonely nights  
I'll leave it to you  
So stay an I'll just fade away  
I always knew love had it's own will  
This heart of mine always stood still  
Now I can see  
Never before was it so close

It's gone too far to run and hide  
Way too far - I'm by your side  
This time I know love's for sure  
'Cause finally I can see  
That you won't go away  
Yes it's gone way too far  
You're the flame in my heart  
That was once hallow and dark  
And I'm never gonna turn back again  
Now I'm sure  
That I'm never gonna turn back again

Far from you and I  
Waiting for this to pass on by  
I can see with you  
There's no more doubt or turning back

It's gone too far to run and hide  
Way too far - I'm by your side  
This time I know love's for sure  
'Cause finally I can see  
That you won't go away  
Yes it's gone way too far  
You're the flame in my heart  
That was once hallow and dark  
And I'm never gonna turn back again  
Now I'm sure  
That I'm never gonna turn back again

Break away  
Now this time I'm gonna stay  
It's for sure  
And my eyes are open wide

Yes I'm never gonna turn back again  
This time I'm sure  
That I'm never gonna turn back again  
I'm never gonna turn back again  
I'm never gonna turn back again  
Now I'm sure  
That I'm never gonna turn back again  
Never gonna turn back  
Never gonna turn back again
