

Now That I Found You

Jennifer Rush

So amazing somehow
I believe it now
Without ever knowing for sure
Never before until now

That a woman like me can find understanding
I can walk alone, proud to be strong

But now that I found you
Here's my life, my soul
Everytime you take my hand
My heart is in it

Until I found you
Never knew what it meant to belong
You open your arms and love unfolds
I'm forever yours

I stand before you now
Gazing at tenderness
Hearing the sound of your voice
I am defenceless

How can a woman like me find understanding
Don't want to walk alone, no
I surrender

Now that I found you
Here's my life, my soul
Everytime you take my hand
My heart is in it

Until I found you
Never knew what it means to find love
And where I can cross over that border
To forever, we're already there

Now that I found you
Here's my life, my soul
Everytime you take my hand
Ooh my heart is in it

Until I found you ...
