Stronghold

Jennifer Rush

For a little while I was living wild I let my heart run where it wanted to I was runnin' scares You were always there Standing by me Just like you always do Guess it took some time For me to come around To see what I'd lost And what I had found I got a stronghold I got a will to love I got a stronghold on this love I got a stronghold This time I won't let go I'll keep a stronghold on this love I got a stronghold on this love Many many times I would fantasize So much I wanted just to be with you Wishing it could be Only you and me So clear I'd see us like a picture book Now I know that I Don't have to pretend And my hands don't lie As they hold you in I got a stronghold I got a will to love I got a stronghold on this love I got a stronghold This time I won't let go I'll keep a stronghold on this love I know that you could break away But I know I'd be devastated by the blow For me ther's no other way And I know, I know

Instr.

Now I know what's mine And I won't pretend And my hands don't lie As they hold you in

I got a stronghold I got a will to love I got a stronghold on this love I got a stronghold This time I won't let go I got a stronghold on this love I got a stronghold I got a will to love I got a stronghold on this love I got a stronghold This time I won't let go I got a stronghold on this love
