

## Unwanted Child

Jennifer Rush

I opened up my door for you  
But you wouldn't come inside  
You told me that you've always been  
An unwanted child

You never needed anyone  
You've always been alone  
You were always on the run  
You never had a home

Unwanted child  
Come and lay with me, in my arms awhile  
Unwanted child  
You don't have to go, won't you stay this time

If I could change the past for you  
You know I would try  
Cause darling I can see the love  
That never saw the light

Nothing's standing in your way  
Baby that was yesterday

Unwanted child  
Come and lay with me, in my arms awhile  
Unwanted child  
You don't have to go, won't you stay this time

All I want is for you to see  
That you belong here with me

Unwanted child  
Come and lay with me, in my arms awhile  
Unwanted child  
You don't have to go, won't you stay this time
