

# You'll Never Catch Me Dreaming

Jennifer Rush

Hold me now, let the night close in  
Close your eyes we can ride the wind  
I know your fears my love  
I know you're hearts been hurt before  
There's no need to worry now  
This is devotion baby I'm faithfully yours

And you'll never catch me dreaming  
Of anyone else but you  
You'll never catch me dreaming  
No one's ever loved me the way that you do

In your arms time stands still  
I love you now and I always will  
We share a secret place  
Deep in our hearts just you and me  
Our love is safe from harm  
A sacred emotion it's all that I need to believe

That you'll never catch me dreaming  
Of anyone else but you  
You'll never catch me dreaming  
No one's ever loved me the way that you do

And in the deepest night  
When you watch me sleeping by your side  
Silently by your side  
You will see you're the dream in me  
And we're running free

From the dark to the light  
You'll never catch me dreaming  
Of anyone else but you  
You'll never catch me dreaming  
No one's ever loved me the way that you do
