

# Bad Man's World

Jenny Lewis

It's a bad man's world  
It's a bad man's world  
It's a bad man's world

It's a bad man's world  
It's a bad man's world  
It's a bad man's world

Was I born as a promise to keep the peace  
Or meet the shame?  
Before you split, one thing left  
To give me my ordinary name  
Give me my ordinary name

Now that I'm still standing  
I've got something left to prove  
Got a bullet left, but I can't decide  
Which scorpion I'm going to shoot  
Will it be me, will it be you?

It's a bad man's world  
It's a bad man's world  
It's a bad man's world

It's a bad man's world  
I'm a bad, bad girl  
It's a bad man's world

I will never forgive you  
For what you put us kids through  
Remember that night  
You tried to take your own life?  
When I found you  
You were a shade of blue  
Success is a state of mind  
With a little bit of follow through  
And then you failed at that, too

It's a bad man's world  
It's a bad man's world  
It's a bad man's world

It's a bad man's world  
I'm a bad, bad girl  
It's a bad man's world

Will it be me, will it be you?

It's a bad man's world  
It's a bad man's world  
It's a bad man's world

It's a bad man's world  
I'm a bad, bad girl  
It's a bad man's world
