

Nighty Night

Jenny Owen Youngs

Fall to sleep, fall to sleep
It's you that I long to keep
But this world will never stay still
For you and me

Close your eyes, dream of fire
And embers that never expire
The flames that only will burn
When we return

Don't let me fade from your mind, love
Dim by the light of the day
Out of the darkness we'll find the way

Take my hand, follow me
We'll dance 'til the starlight retreats
And our eyes will never be dry
Until we meet

Don't let me fade from your mind, love
Dim by the light of the day
Out of the darkness we'll find the way

When the morning arrives
And the world comes alive
There you'll leave me behind
And we'll try to survive 'cross the divide

Don't let me fade from your mind, love
Dim by the light of the day
Out of the darkness we'll find the way

Fall to sleep, fall to sleep
It's you that I long to keep
But this world will never stay still
For you and me
