

Run Away With Me

Jens Lekman

What are you gonna do on Christmas eve?
Please don't spend it with your family
I know you love your mommy
But she's more like a mummy

She's so empty
She's so empty
So run away with me

She's so empty
She's so empty
So run away with me

Yeah I know it's been a bad year
And I could trace every tear
Back to your little eye
But I see a future for you and I

Cause we're not empty
We're not empty
So run away with me

We're not empty
We're not empty
So run away with me now, baby, now
