

## Run Away With Me

Jens Lekman

What are you gonna do on Christmas eve?  
Please don't spend it with your family  
I know you love your mommy  
But she's more like a mummy

She's so empty  
She's so empty  
So run away with me

She's so empty  
She's so empty  
So run away with me

Yeah I know it's been a bad year  
And I could trace every tear  
Back to your little eye  
But I see a future for you and I

Cause we're not empty  
We're not empty  
So run away with me

We're not empty  
We're not empty  
So run away with me now, baby, now
