Run Away With Me

Jens Lekman

What are you gonna do on Christmas eve? Please don't spend it with your family I know you love your mommy But she's more like a mummy

She's so empty
She's so empty
So run away with me

She's so empty
She's so empty
So run away with me

Yeah I know it's been a bad year And I could trace every tear Back to your little eye But I see a future for you and I

Cause we're not empty We're not empty So run away with me

We're not empty
We're not empty
So run away with me now, baby, now
