

# Feel The Bass

Jeremih

Red bottom poppin' in VIP  
It's all, won't you come here  
Let me put it on you  
I just I just I just wanna try, try  
Sing a lil' lullaby, by  
We can move fast, then slow  
Amplify me up but please don't blow me  
Baby, baby let me light the fuse, fuse  
Won't you let me show you what it do, do

Baby we should go oh  
(Somewhere where we could)  
Feel the bass,  
(Somewhere where we could)  
Feel the bass  
Boom  
Just a little more, oh  
(Somewhere where we could)  
Feel the bass  
(Somewhere where we could)  
Feel the bass  
Boom

She wrap the piece down her hip  
The flame dropper  
Keep the bass bass  
Tear, tear the whole block up  
Woa-a-a tear the whole block up  
Baby I should, how you make it sound like that  
Got it bumping round like that  
Putting on the choke, you put it down like that  
Ain't no other honestly  
Bang bang as hard as me  
New king in this r&b

Baby we should go oh  
(Somewhere where we could)  
Feel the bass,  
(Somewhere where we could)  
Feel the bass  
Boom  
Just a little more, oh  
(Somewhere where we could)  
Feel the bass  
(Somewhere where we could)  
Feel the bass  
Boom

Whatchu' gon' do  
'Cause now I be thinking of you  
When I'm hearing this song  
Fela-le-le that remember you  
I'm nothing but the boom  
Breaking this off  
Whatchu' gon' do  
'Cause now I be thinking of you  
When I'm hearing this song

Toast it a le-le that's remember you  
I'm nothing but the boom  
Breaking this off

Baby we should go oh  
(Somewhere where we could)  
Feel the bass,  
(Somewhere where we could)  
Feel the bass  
Boom  
Just a little more, oh  
(Somewhere where we could)  
Feel the bass  
(Somewhere where we could)  
Feel the bass  
Boom.
