

Remember Me

Jeremih

Fortunate to know you babe
While I've been busy running these streets
You make sure your home is straight
While I been politicking with the freaks
And I know everything has changed
Everything with you and me
Cause you know where my heart is girl
In our bed when you sleep

How about 'bout 'bout 'bout 'bout 'bout we make it babe
For rich or poor, you won't be broke
But even if your nigga ain't rich

Remember me like this
Just like this
Remember me like this
Just like this

I know my loyalty, you waiting on it
But you've had it since the day you met it
Now I'd lose my way girl if I left you lonely
It's because of who we are, you here love

I hope, I hope, I hope I hope, we make it babe
For rich or poor, we won't be broke
But even if your nigga ain't rich

Just remember me like this
Just like this
Remember me like this
Just like this

Have me lover
Keep me baby
Think of me forever this way
Hold me closer, keep me safe
Now I told you, love don't change
Have me lover
Keep me baby
Think of me forever this way
Hold me closer, keep me safe
Keep me safe, oh

I hope, I hope, I hope I hope, we make it babe
For rich or poor, we won't be broke
But even if your nigga ain't rich

Remember me like this
Remember me like this
