

I Will Follow (You Are With Me)

Jeremy Camp

Though the desert be before me
And there's no relief in sight
Though the enemy is breathing
All the lies into my mind

You will always carry me
Until my dying day
What you have for me is worth it
'Cause I'll see you face to face

I will follow, follow you wherever you go
And I will listen, to the very promises I know
You are with me, always with me
Keeper of my soul
I will follow, follow you wherever you go

And the day is coming quickly
When you break open the sky
And the armies all around you
Will be conquering the night

You gather all the children
That are calling out your name
When the troubles are the here and now
I know it's not in vain

You have my heart
I'll follow all the way
I will follow
