

Spirit Now

Jeremy Camp

We want Your spirit now
We want Your spirit now
Come and fall on us
We need Your spirit now
We need Your spirit now
Come and move in us

I bear my soul
Invade every part of me
Come so close
I can feel Your heartbeat
Let Your fire consume what is not of You

So take our shame
And cleanse our failings
So we may come and declare You holy
Shake these wall so we will never be the same

We surrender, surrender
We let Your spirit move
We let Your spirit move
And forever, forever
Let us burn for You
Let us burn for You
