

# Without You

Jeremy Camp

I'll walk beside You  
As you lead me through still waters for my soul  
I place my hope in all You are, yeah

And I know You'll guide me  
To places where there's beauty to behold  
There's no other place I'd rather be, no

Cause I've been down the other road  
Where fear and doubt  
They take control  
And I won't go there anymore

And I won't make a move  
Without You, whoa  
I won't make a move  
Without You  
Right by my side  
So I will wait for You  
To lead me to  
Any place where You need  
I won't make a move  
Without You  
Without You

I've walked through the fire  
And every step You never left my side  
In You is where my help comes from, yeah

Cause You lead, I'll follow  
No matter if the place it seems so cold  
My heart's desire is You Lord, yeah

And I've been down the other road  
Where fear and doubt  
They take control  
And I won't go there anymore

And I won't make a move  
Without You, whoa  
I won't make a move  
Without You  
Right by my side  
And I will wait for You  
To lead me to  
Any place where You need  
I won't make a move  
Without You  
Without You

And I'm letting go  
I give You control  
It's not my will  
But Yours I'll follow

And I lay my life  
Down at Your feet

And I know...

I won't make a move  
Without You, whoa  
I won't make a move  
Without You  
Right by my side  
And I will wait for You  
To lead me to  
Any place where You need  
I won't make a move  
Without You  
Without You  
Without You  
Without You

Take my heart, it's Yours  
Your hand, I'll hold  
You lead, I'll go  
And I won't make a move, no
