

# You Will Be There

Jeremy Camp

And I begin the day  
With the faith You fashion my ways  
And I cannot escape for Your hand it leads  
Your right hand holds me

When I wake You will be there  
When the sun goes down in the night  
You will be there

My life has been ordained  
You have formed this very frame  
And I am fearfully made  
For I was made in that secret place

When I wake You will be there  
When the sun goes down in the night  
You will be there

When I wake You will be there  
When the sun goes down in the night  
You will be there

How precious are Your thoughts all over me  
Oh, more than the sands of the sea

When I wake You will be there  
When the sun goes down in the night  
You will be there

When I wake You will be there  
When the sun goes down in the night  
You will be there

When I wake You will be there  
When the sun goes down in the night  
You will be there, You will be there
