

## Damien Dreams

Jeremy Enigk

Here in all my time will tell  
They said I love this life  
The way that I love you  
Only scars can show me now  
If I've gone astray  
Promise me you'll be here

Only time can show me how  
They said I love this life  
Running from how I feel  
Lonely words still top of hell  
If I've gone astray

Promise me you'll be here to stay awake  
I don't know, sometime you tell me when I'm wrong  
Hollaring who made the skies and the wind blow  
If you ask, you'll see

Only time can show me how  
They said I love this life  
Running from how i feel  
Lonely words still top of hell  
If I've gone astray

Promise me you'll be here to stay awake  
I don't know, sometime you tell me when I'm wrong  
Hollaring who made the skies and the wind blow  
If you'll ask forevermore don't turn me down
