

# Lizard

Jeremy Enigk

Lizard worry wonder where it will go  
Springing chime and bells  
Can you hear them ringing

Wait a while in your castle there

Fly through window  
Morning dream paradise

Stories to tell you never heard  
I know that it takes time

Under his shadow  
Tremors a dreary heart

Words never heard  
And those words never said

Wait a while in your castle there

Fly through window  
Moon rise dream paradise

Stories to tell you never heard  
I know that it takes time then  
The writing on the wall said  
He is only the way

You said it was bad timing but  
At least we had timing at all
