

Oh John

Jeremy Enigk

Oh John, just listen
And hear it ringing 'round your brain
I too can hear it
And hope someday we'll see it through

Oh John, remember
The way we used to feel inside
And John, remember
In stone is your new name on end
Only you can see

[Chorus]

Here to depart
There a new wonder racing to start
I can't help but fill in the writing
Watch all our tears wash away | x2

Oh God, remember
The way we used to feel inside
And Johnny, well, just listen
In stone is your new name on end
Only you can read

(Chorus)
