Where are you now
Where are you going
See you coming
Back again
A magic world in a look
A magic world in a look of eyes

Worry you now
Heart a racing
See how you're running
Back again
A magic world in a look
A magic world in a look of eyes

Carry you now
Bearing on shoulders
See you coming
Back again
A magic world in a look of
A magic world in a look of eyes

Don't tell me you changed your mind
Sear your eyes in the northern wind
I'd escape when you're running through
I've a magic world in a look
A magic world in a look of eyes
