Set It On Fire

Jeremy Enigk

Another one we all walk away Never a dream your eyes, wont you play Rhythm alone won't hold me in mind

Ooh want to set it all on fire Bury my feet in the cold of a meadow Into the unknown northern wind Dreams to ignite through northern fields we'll fly, fly

Don't tell me its all the same in the middle So memory lie outside your meadow Tow me around outside the middle for all i can hear Turn me around all I can be here
