

Left Behind

Jeremy Fisher

It's cold when it's October here
But the leaves are burnin' red
There's one still hanging on my tree
That just won't give into the wind

I had faith in one thing
That was gravity
But you took my feet from the ground so high
I don't know what that word even means

[Chorus]
You're always dreamin' so far ahead
I feel a little left behind
We will never find each other my love
In the same place at the same time

You never saw yourself as an artist
I never saw a portrait like your smile
We never saw each other first time we looked
But good things take a while

And you wish to have it figured out
Every detail of your life
Well it's kind of a drag to think about
You not figuring into mine

[Chorus]

So I'm putting this love for you out there
And it will not be bound by time
I'll be in your hands as a deck of cards
And on your lips like cheap red wine
