

Higher

Greene, Jeremy

This the moment I have been waiting for
It's my time to shine
Been to hell and back and now I see
Nothing can stop me now
I feel the music take control of me
And the sunshine on my face
I was blind but now I see
You can't stand in my way
Higher higher
It's taking me higher
Higher

Have you ever needed something more
Felt like it's too hard
Keep on climbing cause I know you can

You reach your stars
I feel the music taking control of me
And the sunshine on my face
I was bind but now I see
You can't stand n my way
Higher higher
It's taking me higher
Higher
It's taking me higher
Higher
Higher higher
It's taking me higher
Higher
It's taking me higher
Higher
