

Never

Greene, Jeremy

You know it hurts that I can't see you
Damn I can't believe it
You know you always run through my mind
And still you're telling me you love me
But you'll never trust me
I know I couldn't fix it in time

And I would never find somebody
That could hold me like the way that you do
(Like you do)
And now I'm hoping and I'm praying that it hit you
And you feel like I do (like I do)

Baby no oo oo o
You will never be fine
You will never be fine
No oo oo o
You will never be fine
You will never be fine
Now you will never find somebody that will love you
Like that way that I do (way that I do) (2x)

Now when you told me you was leaving
Decided you don't need me
I felt the nerve quick in my life
And then the room just started spinning
I thought that I was tripping
I wish that I could turn back the time
(I wish that I could turn back the time)

Now I can't help that you're hurting
I deserve it now you do what you do
(Do what you do) (3x)
And now I put it on my life that you will never go
Through what you went through
(Baby come back home) I'm sorry babe come back

Baby no oo oo o
You will never be fine
You will never be fine
No oo oo o
You will never be fine
You will never be fine
Now you will never find somebody that will love you
Like that way that I do (way that I do) (2x)

[Bridge:]
I wish a thousand times I can take it back
I wish a thousand times you could take me back
But there's no way in hell you would see my view
What am I gonna gonna do
Through every minute and second
It just keeps coming and going

It's just more days of thunder somewhere
I'm trapped in the storm
And now I'm crying for you (I'm crying for you)

I'm looking for
Baby come and save me

Baby no oo oo o
You will never be fine
You will never be fine (never never)
No oo oo o (no no)
You will never be fine
You will never be fine
Now you will never find somebody that will love you
Like that way that I do (way that I do) (2x)
