

Tonight

Greene, Jeremy

Baby tonight, is the night
I can feel it, feel it, feel it
Got my crew call your girls
And let's do it, do it, do it
Pop the champagne, hold your glass up, tonight
Don't you hesitate, to celebrate, tonight, ah
Got the spotlights all around you, and the energy surrounds you
tonight
When you know the sound has got you
And there's nothing that's gonna stop us tonight
Cause baby tonight is the night
On the dance floor, oh
And baby tonight, I'll be, don't touch the floor
And baby tonight is the night
On the dance floor
Cause baby tonight, I'll be, don't touch the floor
Don't touch the floor

Baby tonight, is the night
To get stupid, stupid, stupid
Left to right, right to left, keep it moving, moving
Pop the champagne, hold your glass up, tonight
Don't you hesitate, to celebrate, tonight, ah
Got the spotlights all around you, and the energy surrounds you
tonight
When you know the sound has got you
And there's nothing that's gonna stop us tonight
Cause baby tonight is the night
On the dance floor, oh
And baby tonight, I'll be, don't touch the floor
And baby tonight is the night
On the dance floor
Cause baby tonight, I'll be, don't touch the floor
Don't touch the floor.
